PFF Fellow & Mentor Learning Goals

The primary goal of the PFF mentorship is to offer Fellows a comprehensive picture of the multiple roles and responsibilities of faculty at partner campuses, while providing guidance to their professional development. To accomplish this, we ask each Fellow and Mentor pair to discuss and identify the main learning goals and the set of activities they plan to follow. While goals may evolve over time, it is helpful to begin with a shared vision (ie, effective teaching methods, job search strategies, negotiating offers, etc).
