

# TWP Writing Studio

## Dissertation, Article, and Thesis Assistance (DATA) Program – Fall 2024

### The TWP Writing Studio is seeking graduate writers!

Working on a thesis, an article for publication, or a dissertation?

In the Dissertation, Article, and Thesis Assistance Program, graduate writers will pair with a TWP Writing Studio consultant for regular meetings over the course of the spring semester.

Writers will collaborate with their consultant to set goals, establish accountability, and receive individualized feedback on their large writing projects.

#### Individual Consultations

- › DATA streamlines the consultation process by allowing writers to work on large projects with the same consultant.

#### Plan and Set Goals

- › Consultants work with each writer to establish reasonable deadlines for writing and revisions.

#### Tackle Your Project!

- › Regular meetings can be a source of motivation for writers prior to their final deadlines.
